SUBJECT: Colbert Well Sampling Committee

Effective June 1, 1990, I will resign from the Colbert Well Sampling Committee.

With the recent authorization from the Department of Revenue to proceed with the implementation of our automated appraisal analysis system, I will not have the luxury of time until the project is completed two years from now.

I have enjoyed serving on the committee and being involved in setting up the committee in its present form. I would like to remain on the mailing list as long as the committee is active.
